1. Please indicate your opinion in the following categories:

Content:

- The article may be published.
- The article could be published if changes suggested by the reviewers are made.
- Once the article has been corrected, it will be submitted again for review.
- It is not of a publishable quality.
- The article is fine, but not within the themes of the journal.

Writing:

- The writing is of high quality and does not require correction.
- The writing requires correction.
- It has serious deficiencies that hinder understanding.

2. Please indicate if there are information errors (dates, acronyms, names, etc.)

3. General comments:

- The relevance and originality of the topic, the problem or the approach.
- Clarity in the exposition of the objectives and in the approach of the research.
- Conclusion or results of the research
- Innovative contributions (theoretical, methodological and empirical) of the article.
- Use of information sources. Are the main sources sufficient? Are they recent?
- Does the content and organization of the article show an orderly, logical and coherent sequence?
- Main suggestions to improve the article, if you are recommending publication.

Please indicate which of the following lines corresponds to the text being evaluated (you can choose more than one option):

- Ancient, modern, and contemporary history of Asia and Africa.
- Philosophy and religion in Asia and Africa.
- Development, economy, and regional integration in Asia and Africa.
- Study of Asian and Africa texts, linguistics, and languages.
- State, politics, and international relations of Asia and Africa
- Anthropology, archaeology, and ethnology of Asia and Africa.
- Society, gender, and education in Asia and Africa.
- Art and culture in Asia and Africa.
- Asian and African literature.

Does the article conform to the general guidelines for the submission of originals and to the citation system of the [Chicago Manual of Style](#), specified in the [Guidelines for contributors](#) of *Estudios de Asia y África*?
